

Energysight - 10kVA Silenced Diesel Generator

Description

Producing over 7kVA of continuous power, this barrow mounted generator has a choice of 3 x 230V sockets and 4 x 110V sockets, ideal for if you're powering a variety of tools and lighting equipment on large sites. Perfect for when you're working at a location with no mains power, or for emergency use when a regular power supply fails. It provides you with continuous power for up to 10 hours making it ideal for when power is required for a full day without interruption. The barrow mount means you can manually move it around to wherever it is needed. Its low noise emission of 70 dB makes it an ideal choice if used in a populated area.

- 3 x 230V sockets, 4 x 110V sockets
- Low noise emission – 70 dB (A)
- Recommended for use with an RCD plug

Unit Specification:

Engine	Electric Start
Fuel	Diesel
Generated Voltage	110V/240V
Continuous Power	7.2kW
Fuel Tank Cap/Run Time	10 Hours
Weight	365kg
